

734. Sentence Similarity Premium

Solved ●

Easy  Topics  Companies  Hint

We can represent a sentence as an array of words, for example, the sentence "I am happy with leetcode" can be represented as `arr = ["I","am","happy","with","leetcode"]`.

Given two sentences `sentence1` and `sentence2` each represented as a string array and given an array of string pairs `similarPairs` where `similarPairs[i] = [xi, yi]` indicates that the two words `xi` and `yi` are similar.

Return `true` if `sentence1` and `sentence2` are similar, or `false` if they are not similar.

Two sentences are similar if:

- They have **the same length** (i.e., the same number of words)
- `sentence1[i]` and `sentence2[i]` are similar.

Notice that a word is always similar to itself, also notice that the similarity relation is not transitive. For example, if the words `a` and `b` are similar, and the words `b` and `c` are similar, `a` and `c` are **not necessarily similar**.

Example 1:

Input: `sentence1 = ["great","acting","skills"], sentence2 = ["fine","drama","talent"], similarPairs = [ ["great","fine"], ["drama","acting"], ["skills","talent"] ]`

Output: `true`

Explanation: The two sentences have the same length and each word `i` of `sentence1` is also similar to the corresponding word in `sentence2`.

Example 2:

Input: `sentence1 = ["great"], sentence2 = ["great"], similarPairs = []`

Output: `true`

Explanation: A word is similar to itself.

Example 3:

Input: `sentence1 = ["great"], sentence2 = ["doubleplus","good"], similarPairs = [ ["great","doubleplus"] ]`

Output: `false`

Explanation: As they don't have the same length, we return false.

Constraints:

- `1 <= sentence1.length, sentence2.length <= 1000`
- `1 <= sentence1[i].length, sentence2[i].length <= 20`
- `sentence1[i]` and `sentence2[i]` consist of English letters.
- `0 <= similarPairs.length <= 1000`
- `similarPairs[i].length == 2`
- `1 <= xi.length, yi.length <= 20`
- `xi` and `yi` consist of lower-case and upper-case English letters.
- All the pairs `(xi, yi)` are **distinct**.
